

PUPPY GRADUATE CLASSES

All classes held at:

Animal Hospital of Oshkosh
1961 S Washburn Street
Oshkosh, WI 54904
(920) 235-2566

PURPOSE OF CLASS: Our classes are designed to socialize your puppy with people and other dogs, while continuing their education of obedience commands. Puppies, regardless of age, will benefit from being exposed to all the smells of a veterinary clinic, using the scale for weighing, different handling exercises, and mock veterinary physical exams with positive associations.

Our continued focus remains using positive reinforcement or rewards (praise, petting, play, treats, and life rewards). We also help you to build leadership, while educating you to better understand and enhance communication with your canine companion. Our small classes assure that you and your puppy get individual attention. We try to maintain a limit of 6 dogs per class.

REQUIREMENTS: Puppies must have completed any puppy class. Distemper (Da2pp) and Bordetella (kennel cough) and Rabies vaccines must be current. If you are not a client of Animal Hospital of Oshkosh, please mail in a copy of your dog's vaccination records with your reservation form. You may also bring your vaccine records on the first night of class.

WHEN: *Please see the schedule link for upcoming class availability.*

PAYMENT: \$65.00 for the 6 week session

To reserve a place in our class, we must receive a completed registration form with full payment. You can mail your completed form and check (payable to Animal Hospital of Oshkosh) to the address listed above.

For your convenience, you can also stop in during our business hours at the clinic and register by using cash, credit card, or check.

We will send you a receipt of payment as a confirmation to let you know we have reserved a spot for your dog in class. You will receive either a phone call or a postcard prior to the start of class to confirm date, time, and what you will need to bring the first night.

If you have any specific problems or questions, please contact April or Lori K. at the Animal Hospital of Oshkosh (920-235-2566).
